I pray Pence does the "sorry can't count these fraudulent ballots", does the Thomas Jefferson mic drop, and Trump declares martial law.

If this does not happen, I will not be leaving DC without taking a few commies or RINOs with me, in Minecraft of course

Pentagon and Military Intelligence is the only authority Congress will listen to. It is clear that President Trump is saving the best for last.

Only raw power and the will to use it counts for anything at this point. The Dems have brought us to this sorry situation and have put a knife to the throat of the Republic.

We already have 100xs the evidence needed to overturn the entire election. No one is acting on it though.

Is Trump depending upon evidence before the snakes in both parties changing the results? If you need a majority in both houses to reject electors it is never occurring, You have only 10 senators and 100 House members.

Don't think the military will be needed. It is fun to watch the screeching of the soy bitches though.

What does the military have to do with this election? If you have enough votes in the senate and house to unseat the electors Trump wins. If not Trump loses. The military will have nothing to do with it - nor should it.

When an election is fraudulently stolen the military absolutely has the obligation to uphold the nations institutions. history will tell if it us the military, or us.

With two sons on active duty let me make it clear to you that you would not cut it in today's military. They are locked, loaded and willing to defend the Constitution that clearly you have forgotten

Myself, all four brothers and father have served in the military. Our oath is to the constitution and the republic - the rule of law. The military is under civilian control - you dont get to decide what is constitutional or not - the court does. And we accept that court decision and defend it whether we like it or not. Further - we are sworn to obey the orders of officers appointed over us and the President of the US.

They might be but their commanders aren't. Anyone who thinks the military is gonna play any role at all, besides potentially a negative one, remains fooled.

Not so sure about that, with Chris Miller positioned as SEC DEF, and other recent realignments Trump has made regarding DoD structure. (Special Ops report directly to Miller, etc.)

The ten former SEC DEFs spouting off this morning about "no role"? Simply evidence Trump is *OVER THE TARGET*.

The several other chest-candy Army guys who said "military has no role" a few weeks back? Well, they're below Miller, may be packing their bootlocker, soon.

Anecdotal: Trump's reception at Army-Navy football game? Tells you something.

We shall see.

Lol, my boys are probably older than you and I am probably older than your grandfather. My oldest son is a full bird Colonel and my youngster is a Major.

They both just were ordered to return to the US, along with about 20% of the enlisted and officers under their command, but with no specific orders, but to leave their families, one in Korea and one back from Japan.

Of course I have no idea what they are being told because they are both offline But Don't worry there are many versions of the silent majority.

That's great, I hope they're not the minority. Unfortunately the military has a documented 80+ year history of corruption, mostly documented by ex-military officers.

The bad guys are generally the money grabbing military industrial complex and the active duty guys just looking for that cushy dod contractor job.

Trump swore an oath to god to protect the United States and the Constitution from all enemies both foreign and domestic.

We will establish that there are foreign enemies of the United States who subverted our election system and conscripted US citizen traitors to assist them. The US military was established and is in place to protect the country against those enemies.
